Declines in the diagnosis of primary progressive MS: A critical change in phenotype or critical measurement error?
GR Cutter, A Salter and RA Marrie

Exploring the overlap between multiple sclerosis, tumefactive demyelination and Baló’s concentric sclerosis
TA Hardy, WO Tobin and CF Lucchinetti

CSF examination still has value in the diagnosis of MS—YES
L Brundin

CSF examination still has value in the diagnosis of MS—NO
J Killestein and BMJ Uttdenhaag

CSF examination still has value in the diagnosis of MS—Commentary
G Arrambide and M Tintore

The multiple sclerosis-associated regulatory variant rs10877013 affects expression of CYP27B1 and VDR under inflammatory or vitamin D stimuli
M Karaky, A Alcina, M Fedetz, et al.

Progranulin genetic polymorphisms influence progression of disability and relapse recovery in multiple sclerosis
M Vercellino, C Fenoglio, D Galimberti, et al.

Increased prevalence of lymphoid tissue inducer cells in the cerebrospinal fluid of patients with early multiple sclerosis
M Degn, S Modvig, B Dyring-Andersen, et al.

Smoking is a major preventable risk factor for multiple sclerosis
AK Hedström, T Olsson and L Alfredsson

Vitamin D and axonal injury in multiple sclerosis
L Sandberg, M Biström, J Salzer, M Vågberg, A Svenningsson and P Sundström

Ultra-small superparamagnetic iron oxide enhancement is associated with higher loss of brain tissue structure in clinically isolated syndrome
A Maarouf, J-C Ferré, W Zaaraoui, et al.

Heterogeneity of acute multiple sclerosis lesions on sodium (23Na) MRI
P Eisele, S Konstandin, M Griebe, et al.

PML risk stratification using anti-JCV antibody index and L-selectin
N Schwab, T Schneider-Hohendorn, B Pignolet, et al.

Dimethyl fumarate selectively reduces memory T cells in multiple sclerosis patients
EE Longbrake, MJ Ramsbottom, C Cantoni, L Ghezzi, AH Cross and L Piccio

A significant decrease in diagnosis of primary progressive multiple sclerosis: A cohort study
H Westerlind, L Stawiarz, K Fink, J Hillert and A Manouchehrinia

Effect of fingolimod on cardiac autonomic regulation in patients with multiple sclerosis
S Simula, T Laitinen, TM Laitinen, T Tarkiainen, P Hartikainen and JEK Hartikainen

Prognostic indicators of secondary progression in a paediatric-onset multiple sclerosis cohort in Kuwait
S Akhtar, R Alroughani, SF Ahmed and Jasem Y Al-Hashel

Individual differences in depression are associated with abnormal function of the limbic system in multiple sclerosis patients
R Riccelli, L Passamonti, A Cerasa, et al.
